CREDITS AND THANKS:

Vilas: the weapons are mostly Vilas MLODS modified and ported to A3 with his permission, credits for most part of weapons models go to him thanks a lot because I wouldn't have been able to create realistic weapons for the units without your great models!

BI: for releasing the A1 sample models , from which I have taken the rest of the weapons models ported to A3, thanks for the same reason above!

LordJarhead: for all the weapon's sounds and the needed config entries!

Sound Author= **LordJarhead**

Website= <http://www.jsrs-studios.com>

Alwarren: thanks a lot for making me able to port Vilas and A1 weapons to A3 , your constant help was essential to have the weapons working ingame!

Zach Gibsons: thanks a lot for making Arma 3 weapons Tutorial, without your great tutorial I wouldn't have been able to port the weapons ingame.

ToadBall: thanks a lot for making Arma 3 ready M16, that was fundamental to get the weapons ingame!

Kaelies: for PSO reticles textures.

Robalo: thanks a lot for making ASDG Joint Rails optional config, wich I've adapted to new version and included in addon pack as optional config !

Thanks a lot to BI for their great Arma 3 Alpha !

Thanks to all Arma community for great support !

Best Regards
